Fee Structure

BP Lawyers will determine the service fees subject to the nature of each matter, which can be hourly rates or other preferences of billing fee structure that the clients feel more suitable for their needs.

We believe in an open discussion with our clients regarding the expected and ongoing costs of a transaction matter as well as in helping clients to manage the costs and achieving their objectives.

The following are the most prevalent types of fee structure in BP Lawyers:

- ▣ Hourly Fee System
- ▣ Project Fee System
- ▣ Retainer Fee System

It is important to note firstly that BP Lawyers has a record of evaluating and implementing alternative billing structures for complex transactional matters. Therefore, we can surpass theoretical discussion whether an alternative billing structure would be appropriate for our clients' matters.
